Internship Opportunities: No Current Openings Available—See Information Below

Firm Summary:

Winged Keel Group is an independent life insurance brokerage firm that creates and implements tax-efficient, multi-generational wealth accumulation and wealth transfer strategies for ultra-high net worth families. With offices in New York and San Francisco, the firm specializes in the structuring and administration of large blocks of Traditional Life Insurance and large portfolios of Private Placement Variable Life Insurance and Annuities.

Future Internship Opportunities Summary:

While no opportunities are currently available, we frequently seek bright, dedicated, diligent and analytical students desirous of committing to a long-term learning and growth opportunity by working 15–20 hours per week during the Spring/Summer/Fall semesters. Opportunities are posted when available, so check back each season. Please note we require a minimum commitment of six months for all internships.

Our competitive internship programs are designed to give insight into the sales, marketing, and design analysis functions of the firm and the impact interns can have on our success. Working closely with the department to which they are assigned, interns provide valuable support with research, analysis, and in assisting with deliverables for various projects and business tasks. It is important that interns demonstrate their capabilities and make an impression from the outset.

The learning curve is steep and, for this reason, we require a minimum commitment of six months. Along the way, interns are immersed into their role with a supportive team encouraging success. An internship with Winged Keel Group is an excellent first step in building a strong professional skill set within a thriving, growing, and demanding organization.

Openings will be posted as available. For inquiries, please contact:
